TIPP 10

Version 2.1.0 available for download

Our first English version of the touch typing tutor TIPP10 is now available for download. TIPP10 is free open source software for Windows, Mac OS und Linux. TIPP10 is very popular in Germany and was downloaded more than 1 million times.

The new version 2.1.0 has more than 50 new features and improvements. Thanks to the users' donations we were able to translate the software, lessons, manual and website by professional translators.

Some of the greatest improvements are:

- User interface, lessons and manual in English language
- German training lessons for the NEO 2.0 keyboard layout
- ABC game
- Metronome
- New statistic: Error rates of the fingers
- Color settings for the ticker
- New open lessons
- Revised lessons and improved intelligence
